**Comm-Works Announces Total Energy Services**  
*Comprehensive services that allows for energy cost savings and further energy sustainability initiatives throughout an enterprise*

MINNEAPOLIS– Comm-Works LLC, a global provider of technology and infrastructure services announced the market introduction of its Total Energy services portfolio. This full suite of services provides up front energy audits and analysis, design and implementation of energy conservation measures and deployment of standardized energy management systems at any site globally. Total Energy services also include real-time management, monitoring and analysis of customers' energy usage to assure ongoing high levels efficiency and economy.

Alan Lampe, Comm-Works' president and chief executive officer, said, "Comm-Works is very excited to offer such a breadth of services to help our customers with their energy initiatives." He continued, "To date we have already deployed energy management solutions with a number of strategic customers. With Comm-Works' vast experience in providing infrastructure and voice solutions primarily to remote locations, it is a natural progression to offer similar design, implementation and support services for energy management controls that are resident on the same network."

***Energy Management***

Comm-Works simplifies its customers' energy conservation efforts by centrally monitoring and managing energy consumption at all customer locations. Comm-Works interprets and analyzes energy data and continually identifies new opportunities to reduce energy consumption and annual energy expenses. Comm-Works also has local resources that are available 24/7/365 to identify and resolve any problems that require an onsite resource.

***Heating/Ventilation/Air Conditioning (HVAC)***

With Comm-Works' Total Energy service portfolio, customers can obtain relevant, timely and actionable system performance information which is needed to effectively maintain indoor air quality while minimizing energy consumption and costs. Comm-Works simplifies the support of enterprise-wide HVAC solutions and monitors energy consumption at any remote facility. Additionally, Comm-Works provides the information needed to ensure sustainability initiatives are on target and helps its customers be good stewards of the environment.

***Lighting***

Comm-Works provides resources and expertise to upgrade and manage lighting throughout the entire enterprise. Comm-Works can proactively monitor and manage any facility lighting needs, which reduces operating costs and allows businesses to function more efficiently and effectively.

**Comm-Works will debut its Total Energy offering at  
National Retail Federation – The Big Show 2010 - 99th Annual Convention & EXPO,  
January 11-12, 2010 at the Jacob Javits Center in New York City, booth 2624**
